

## Our Sustainable Advantage

Colorworks enjoys a sustainable competitive advantage. Our advantage is that we do our work better than anyone else in the industry.

Why ?

Firstly, we train, train, train. Our guys are good.

Next, our team has been together for a long time because people that join our organization have a vested interest in the company's performance and growth. We know that growth can only come from happy customers who become repeat customers.

Training and retention. This is our sustainable competitive advantage.
