

Support

Once the initial 5 week training period is over, we start the ongoing support program:

- ongoing goal setting and review
- administrative services: accounting, customer statements
- organization of supply of materials and goods on a regular basis

Some points to consider:

- Colorworks wants franchisees to grow their businesses in the communities they serve. Our results are tied to yours.
- franchise territories are exclusive and most are populated with ~ 250,000 people
- Colorworks is a flexible business in that our overhead commitments are very low
- Colorworks provides in the field training for you to get your hands on experience. We pride ourselves on the quality and depth of our training
- with the number of cars that we are repairing, inevitable improvements can be shared across the whole team
- Colorworks organizes suppliers to save you the hassle of inventory. Supplies can be ordered from our approved suppliers at favorable prices and repackaged in more favorable quantities for your use

Franchise offerings are made by prospectus (Uniform Franchise Offering Circular) only.
